The *Oklahoma Register* is a semi-monthly publication prescribed by the Oklahoma Administrative Procedures Act in which all rule making actions and the associated documents must be published. This information is now accessible at www.sos.state.ok.us/oar. A notice of rulemaking intent includes the date, time, and location of public hearings as well as information on how the public may submit written or oral comments concerning proposed rules. The public comment period for all Air Quality Council meetings begins on the date of publication of the notice and ends on the date of the public hearing. The Environmental Quality Board (EQB) accepts comments on the date of the EQB hearing.

If you have questions or require additional information, please contact Cheryl Bradley, Environmental Programs Manager, at (405) 702-4100.
