- **New hazardous air pollutant fee:**  
Increased fee per ton emissions on HAPs  
Increased fee per pound emissions for mercury & lead
- **New area source component:**  
Unpermitted area sources subject to an air pollution standard: \$250 per year
- **New mobile source component:**  
Unpermitted gasoline dispensing facilities subject to CCCCCC: \$250-\$500-\$750 per year based on monthly throughput.  
Unpermitted gasoline bulk terminals subject to BBBBBB: \$500 per year

# October Fee Proposal

October 2010 Council: Estimated Funding Totals

# Revised Fee Proposal

January 2011 Council

- **Annual operating fees** will stay the same
- **New increased permit applications fees**
- **New area source component :**  
Unpermitted area sources subject to an air pollution standard:  
\$250 per year
- **New mobile source component:**  
Unpermitted gasoline dispensing facilities subject to CCCCCC:  
\$250-\$500-\$750 per year based on monthly throughput.  
Unpermitted gasoline bulk terminals subject to BBBB: \$500 per year

# Revised Estimated Funding

January 2011 Council

# Revised Fee Specifics

January 2011 Council

- Add a new section to Subchapter 5  
OAC 252:100-5-2.3 that addresses area sources
- Modify Subchapter 7, OAC 252:100-7 Part 2  
to increase minor source permit application fees
- Modify Subchapter 8, OAC 252:100-8 Part 3  
to increase major source permit application fees
- Include a provision for fee adjustment in Subchapter 5  
OAC 252: 100-5-2.3(d)

## SPECIFICS

# Area & Mobile Source Components

Add OAC 252:100-5-2.3. Annual operating fees for area sources of air pollution

- Unpermitted gasoline dispensing facilities:
  - throughout less than 10,000: \$250
  - throughput 10,000 to 100,000: \$500
  - throughput 100,000 or more: \$750
- Unpermitted gasoline distribution facilities bulk terminals & plants & pipeline facilities: \$500
- Unpermitted area sources subject to 40 CFR Part 63.2: \$250
- Correct payment language in OAC 252:100-5-2.3 (c) \*
- Provisions for fee adjustment (in OAC 252:100-5-2.3(d)) discount fees if other revenues become available

\*correction made since rules were published to the web

## SPECIFICS

# Permit Application Fees

Modify OAC 252:100-7-3. Permit application fees

- Applicability determination: \$250 to \$500
- Construction permit application fees:
  - Permit by rule remains \$250
  - General permit or notice of intent goes from \$400 to \$500
