

SUBCHAPTER 33. CONTROL OF EMISSION OF NITROGEN OXIDES

252:100-33-1.2.Applicability

(a) This Subchapter applies to new fuel-burning equipment that meets both of the following criteria.

(1) The fuel-burning equipment has a rated heat input of 50 million (MM) Btu/hr or greater.

(2) The equipment burns solid fossil, gas, or liquid fuel.

(b) Glass-melting furnaces that are subject to BACT requirements are exempt from the requirements of this Subchapter.
