

Appendix B.

Allowable Emissions for Incinerators with Capacities less than 100 lb/hr [REVOKED]

APPENDIX B.
ALLOWABLE EMISSIONS FOR INCINERATORS WITH CAPACITIES LESS THAN 100 LB/HR

Allowable emission rate may be calculated using the following formulae:

Incinerators with capacities greater than 75, but less than or equal to 100 lb/hr

$$Y = 9213 \times 10^{-4} X^{0.888}$$

Incinerators with capacities of 75 lb/hr or less

$$Y = 0.1$$

Where:

X = refuse charged, lb/hr on an as-loaded basis.

Y = allowable particulate matter emission rate, lb/hr.
