1. **COMMENT (paraphrased):** Change the "DESCRIPTION" of PART 72 to read "Acid Rain Permits Regulation."

RESPONSE: The "DESCRIPTION" header is actually the legal title of the subpart, part or appendices being incorporated, so it would be inappropriate to change it.

Trinity Consultants – Email received October 5, 2007

2. **COMMENT (paraphrased):** The NAAQS criteria pollutant standards in 40 CFR Part 50 should be added to Appendix Q and Subchapter 3, Air Quality Standards and Increments, revoked.

RESPONSE: The Department will take this comment into consideration.
