

Frequently Asked Questions

Home Water Testing Price List

When to Test Your Well Water

Conditions or Nearby Activities	Recommended Tests	Cost of Test(s)
Testing to see if water is potable/ safe to drink	Coliform bacteria	\$24.08
General water quality of well	Routine (alkalinity, chloride, nitrite/nitrate, conductivity, pH, sulfate, TDS, hardness)	\$167.37
Dentist needs fluoride level to prescribe additive to water	Fluoride	\$27.51
Recurrent gastro-intestinal illness	Coliform bacteria	\$24.08
Water with laxative effects	Sulfate, conductivity	\$30.95
Infant in the home	Coliform bacteria, nitrite/nitrate	\$51.59
Home daycare	Coliform bacteria, nitrite/nitrate, lead	\$75.67
Household plumbing contains lead (built prior to 1988)	pH, lead, copper	\$60.77
Radon in indoor air or region is radon rich	Radon	\$30.96
Scaly residues, soaps do not lather, determining if water softener is working	Hardness (before and/or after treatment)	\$18.34
Water softener needed to treat hardness	Manganese, iron	\$48.16
Colored deposits, stained plumbing fixtures or laundry, test for:	• Green/blue – Copper	\$24.08
	• White – TDS, sulfate, calcium	\$77.96
	• Reddish brown/black – Iron, iron related bacteria, manganese	\$90.58
Bitter/acrid taste or odor	Corrosivity (pH, alkalinity), metals (iron, manganese, arsenic)	\$103.19
Rotten egg odor	Sulfate reducing bacteria	\$42.42
Pitting of pipes, plumbing, faucets	Corrosivity (pH, alkalinity), lead	\$55.03
Rapid wear of water treatment equipment	Corrosivity (pH, alkalinity, conductivity)	\$43.56
Nearby areas of intensive agriculture	Nitrite/nitrate, pesticides, coliform bacteria, conductivity	\$428.74
Animal feedlots nearby	Nitrite/nitrate, conductivity, coliform bacteria	\$64.20
Coal or other mining operation nearby	Corrosivity (pH, alkalinity), metals (iron, manganese, arsenic)	\$103.19
Gas or drilling operation nearby	Chloride, sulfate, sodium, barium, strontium, Corrosivity (pH, alkalinity)	\$145.61
Odor of gasoline, diesel or fuel oil and near gas station or buried fuel tanks	Total petroleum hydrocarbons (TPH)	\$84.83
Dump, junkyard, landfill, factory or dry-cleaning operation nearby	VOC, TDS, pH, sulfate, chloride, metals (iron, manganese, arsenic)	\$345.07
Salty taste or a heavily salted roadway nearby	Chloride, conductivity, sodium	\$60.77
Do you live in Oklahoma, Logan, Canadian, Cleveland or Pottawatomie County?	Uranium, chromium, arsenic, selenium	\$60.00
