

## Drinking Water State Revolving Fund (DWSRF) Green Project Reserve Eligibility Determination

Name of System  
 DWSRF Project Number/ Loan Number

Shawnee Municipal Authority  
P40-1020504-02 / ORF-10-0004-DW

General Project Description:

Rehabilitation of main pump station at the Shawnee water treatment plant including new pumps, VFDs, HVAC system, building improvements, controls and electrical system. The project also includes repairs to the clearwell roof and a new clearwell vent.

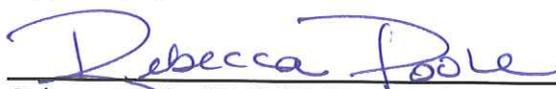

GPR Component Description:

| Item   | Category *        | Categorically Green (Yes/No) | Business Case Required? (Yes/No) |
|--|-------------------|------------------------------|----------------------------------|
| Rehabilitated pump station with high efficiency pumps and motors, new VFDs, high efficiency lighting, reflective roof and high efficiency HVAC system. All necessary appurtenances, controls and electrical components to make pump station operational. | Energy Efficiency | No                           | Yes                              |
|  |                   |                              |                                  |
|  |                   |                              |                                  |
|  |                   |                              |                                  |
|  |                   |                              |                                  |
|  |                   |                              |                                  |

Approved GPR Amount:  
 Approved Subsidy Amount:

\$1,371,636.00  
\$222,750.00
