

# Online Excess Emissions System

## What is the Online Excess Emission System?

The Online Excess Emission System is an electronic format that allows facilities to complete the immediate notification and 10-day official written report requirements online.

## Why do I want to use the Online Excess Emission System?

Reporting of Excess Emissions is required by OAC 252:100-9. The facility is required to submit an immediate notification and a 10-day official written report. With the Online Excess Emission System, both can be submitted online. This will make the process more efficient because the facility will have the ability to submit the 10-day official written report at the same time as the immediate notification or up to 10 business days later if the information is not readily available.

## When do I use the Online Excess Emission System?

Whenever you have an emission of regulated air pollutants in excess of an applicable limitation or requirement as specified in our rules, your permit, or by order of the DEQ.

## When will the Online Excess Emission System be available?

December 1, 2005

## Where can I find the Online Excess Emission System?

The Online Excess Emission System is located at <http://www.deq.state.ok.us/ExcessEmissions>. You can also reach it by going to the DEQ homepage ([www.deq.state.ok.us](http://www.deq.state.ok.us)) and then proceeding to the Air Quality Compliance and Enforcement section. There you will find a direct link to the Online Excess Emission System.

## How do I access the Online Excess Emission System?

In order to use the Online Excess Emission System you need to have a Company ID and password. It is the same Company ID and password you have used if you have accessed the Online Emission Inventory System (Redbud). If you do not have a Company ID and password, contact the DEQ at the e-mail below and we will get you set up with one.

## How will I know if my Excess Emission has been submitted successfully?

When you hit submit and print, you will get a message that will state that your report has been successfully submitted and you will be given an opportunity to print a copy for your own records. Once the DEQ has received the report, we will review it and contact you via e-mail if there are any problems. Please be sure we have the current e-mail address of the responsible official for your company.

## Will I need to submit anything in the paper format?

Yes. Any supporting documentation, calculations, and Demonstration of Cause you wish to send will need to be submitted on paper. We recommend sending a copy of the online excess emission report print out for reference to the supporting information.

## Who do I contact if I have questions?

If you have questions, please contact Hillary Moseley at [hillary.moseley@deq.state.ok.us](mailto:hillary.moseley@deq.state.ok.us), or at 405-702-4100 or 405-702-4145.
