The terms submitted by the vendor which serve to limit the liability of the vendor that are not in accordance with Oklahoma law are rejected and do not become a part of this contract.

"Any limitation of liability submitted by the vendor does not apply to the extent a court of competent jurisdiction (including any appellate court of final review) determines such limitation of liability violates Oklahoma law, in which case the specific limitation that the court determines is in violation of Oklahoma law shall be void."

"Purchase order number must appear on all invoices. If vendor fails to provide purchase order number, it may result in the delayed payment of the invoice."

FY 09

REQ #2920002903

PRODUCT JUSTIFICATION:

This purge and trap will support DEQ/CSD's analytical efforts under the drinking water VOC program, specifically EPA method 524.2 for VOCs and THMs. It will replace an older purge and trap concentrator that has sensitivity issues and difficulty achieving required detection limits. The Encon Evolution offers unique features to minimize carryover between analyses such as heating the sparge vessel during the bake cycle, sample pathways that can be removed or replaced if they become heavily contaminated or develop active sites, and an "early ready" signal to minimize cycle time between sample analyses and enable additional samples to be analyzed within the 12-hour method prescribed operating window.
