DEQ Tentatively Approves Draft Permit for Mid-Way Environmental Services

The Department of Environmental Quality (DEQ) has tentatively approved a Draft Permit for Mid-Way Environmental Services to operate a commercial Class I injection well. The purpose of the injection well is to dispose of non-hazardous industrial wastewater. Mid-Way Environmental Services is located at 900536 South 3490 Road, Chandler, OK 74834.

At this time, DEQ is providing the opportunity for interested persons to review the Draft Permit, submit comments, and/or request a public meeting. Those wishing to comment on the Draft Permit should submit their comments in writing. Also, any person may request in writing a formal public meeting to present oral and written statements and data concerning the Draft Permit. A request for public meeting must identify the nature of the issues to be raised in the meeting. If a public meeting is requested, DEQ will schedule the meeting and provide notice of the date, time, and place.

Written comments and requests for public meeting can be sent to Hillary Young, P.E., Engineering Manager, Department of Environmental Quality, P.O. Box 1677, Oklahoma City, OK 73101-1677. Written comments and requests for public meeting must be received by DEQ no later than June 13, 2014.

More information on the Mid-Way Environmental Services Draft Permit is available at <http://www.deq.state.ok.us/lpdnew/DraftPermits/ppp.html> or by contacting Hillary Young at (405) 702-5100 or Hillary.Young@deq.ok.gov.
