OKLAHOMA DEPARTMENT OF ENVIRONMENTAL QUALITY

REPORT OF PROPOSED ACTIVITIES IN OKLAHOMA

*PLEASE READ THE INFORMATION AND INSTRUCTIONS BELOW
BEFORE COMPLETING FORM #DEQ 410-241X*

Oklahoma Administrative Code (OAC) 252:410-7-31 through 35, establish reciprocity recognition authorizing any person who holds a State registration/permit where the registrant/permittee maintains an office for directing the permitted activity and at which radiation safety records are normally maintained, to conduct the same activity in Oklahoma if the registration/permit issued by the State does not limit the authorized activity to specified locations or installations.

INSTRUCTIONS

In general, the preferred method of filing is via e-mail to Michelle.Brewer@deq.ok.gov and/or Libby.McCaskill@deq.ok.gov. Alternatively, the registrant/permittee may file the required information through the mail or fax. All filings must be received by the Oklahoma Department of Environmental Quality (DEQ) at least three days before the registrant/permittee commences activities permitted under the reciprocity recognition established by OAC 252:410-7-31 through 35 and 252:410-10-150(3).

New or renewal filings should include a copy of this form, a copy of the state issued registration or permit, and, a copy of the check. The physical check should be mailed to the address below. For payment with credit card the registrant/permittee may call DEQ Accounts Receivable at (405) 702-1130. For the most current fee schedule, see the "252:410 Radiation Management Fee Schedule" found at <https://www.deq.ok.gov/asd/rules-and-regulations/>. General filings should be e-mailed to the addresses listed above at least three days prior to commencing licensed activities.

If an acceptable method for filing all of the required information is not available to the registrant/permittee due to an emergency or other reasons, DEQ has the discretion to waive the time requirements specified in OAC 252:410-7-34(4), and for the filing of DEQ FORM #410-241X, provided that the State registrant/permittee:

- a. Informs DEQ by telephone of initial activities or revisions to the information submitted on the initial DEQ FORM #410-241X (e.g. additional locations or work or changes to the ionizing radiation producing equipment or work activities), and
- b. Receives oral or written authorization for the activities from DEQ, and
- c. Files a copy of the DEQ FORM #410-241X, a copy of the State registration/permit, and the check for the fee payment within three days after the telephone notification.

For registrants/permittees submitting revisions to the information contained in the initial DEQ FORM #410-241X, file this Form so that DEQ receives the filing at least three days prior to engaging in such activity.

NOTE: Activities, including storage, conducted in Oklahoma under reciprocity recognition in OAC 252:410-7-31 through 35 are limited to a total of 180 days in any calendar year. Failure to file a DEQ FORM #410-241X may result in civil or criminal penalties.

NOTE: Inspections by DEQ of activities performed in Oklahoma by State registrants/permittees operating under the reciprocity recognition in OAC 252:410-7-31 through 35 may be conducted at the listed work site locations.

State registrants/permittees seeking to conduct activities under reciprocity should file this form and the appropriate fee with:
