

Brownfields Revolving Loan Fund

What is the Brownfields Revolving Loan Fund?

The Brownfields Revolving Loan Fund (RLF) provides qualified applicants with money to clean up contaminated properties. The money is dispersed in the form of low-interest loans.

About the Brownfields Program

The program encourages the redevelopment of contaminated land, so they can then be returned to useful, tax producing properties that generate jobs.

What is a Brownfield?

The federal Brownfields Law defines a Brownfield Site as: real property, the expansion, redevelopment, or reuse of which may be complicated by the presence or potential presence of a hazardous substance, pollutant, or contaminant (42 U.S.C. 9601). In general, a Brownfield can be thought of as property that has lost value because of the perception that the site might be contaminated.
