Emissions Inventory Form for Dry Cleaners
Air Quality Division, Oklahoma Department of Environmental Quality
P.O. Box 1677, OKC, OK 73101-1677 (405) 702-4100

Calendar Year of Emissions

1. Print or type the following for each separately located dry cleaning facility. A separate form is required for each facility.

   Company Name: ________________________________________________________________
   Mailing Address: __________________________________________________________________
   City: __________________ State: _____ Zip: __________
   Phone Number: __________________ Fax: __________________
   E-mail Address: __________________________________________________________________

   Facility Name: ________________________________________________________________
   Street Address: __________________________________________________________________
   City: __________________ State: _____ Zip: __________
   Phone Number: __________________ Fax: __________________

2. In the table below, enter the total gallons of solvent used at this facility for the calendar year. Solvent use is equal to the solvent on hand to begin the year plus any purchases during the year reduced by the gallons of solvent remaining for next year. Calculate the facility emissions by multiplying the gallons used by the pounds per gallon of each solvent.
