Section 2-5-107 – Powers and Duties

27A O.S. § 2-5-107:

The powers and duties of the Council shall be as follows:

1. The Council shall recommend to the Board rules or amendments thereto for the prevention, control and prohibition of air pollution and for the establishment of health and safety tolerances for discharge of air contaminants in the state as may be consistent with the general intent and purposes of the Oklahoma Clean Air Act. The recommendations may include, but need not be limited to, rules required to implement the following:
 - a. a comprehensive state air permitting program,
 - b. an accidental release prevention program,
 - c. a program for the regulation and control of toxic and hazardous air contaminants,
 - d. a program for the regulation and control of acid deposition,
 - e. a small business program, and
 - f. a system of assessing and collecting fees;
2. The Council shall recommend rules of practice and procedure applicable to proceedings before the Council;
3. Before recommending any permanent rules, or any amendment or repeal thereof to the Board, the Council shall hold a public rulemaking hearing. The Council shall have full authority to conduct such hearings, and may appoint a hearing officer;
4. A rule, or any amendment thereof, recommended by the Council may differ in its terms and provisions as between particular conditions, particular sources, and particular areas of the state. In considering rules, the Council shall give due recognition to the evidence presented that the quantity or characteristic of air contaminants or the duration of their presence in the atmosphere, which may cause a need for air control in one area of the state, may not cause need for air control in another area of the state. The Council shall take into consideration, in this connection, all factors found by it to be proper and just, including but not limited to existing physical conditions, economic impact, topography, population, prevailing wind directions and velocities, and the fact that a rule and the degrees of conformance therewith which may be proper as to an essentially

residential area of the state may not be proper either as to a highly developed industrial area of the state or as to a relatively unpopulated area of the state;

5. Recommendations to the Board shall be in writing and concurred upon by at least five members of the Council;

6. The Council shall have the authority and the discretion to provide a public forum for the discussion of issues it considers relevant to the air quality of the state, and to:

a. pass nonbinding resolutions expressing the sense of the Council,

b. make recommendations to the Department concerning the need and the desirability of conducting public meetings, workshops and seminars, and

c. hold public hearings to receive public comment in fulfillment of federal requirements regarding the State Implementation Plan and make recommendations to the Department concerning the plan; and

7. The Council shall have the authority to conduct individual proceedings, to issue notices of hearings and subpoenas requiring the attendance of witnesses and the production of evidence, to administer oaths, and to take testimony and receive such pertinent and relevant proof as it may deem to be necessary, proper or desirable in order that it may effectively discharge its duties and responsibilities under the Oklahoma Clean Air Act. The Council is also empowered to appoint an Administrative Law Judge to conduct individual proceedings and prepare such findings of fact, conclusions of law and proposed orders as they may require. Upon issuance of a proposed order, the Council shall request that the Executive Director issue a final order in accordance with their findings or take such action as indicated and notify the respondent thereof in writing.

Section 2-5-110 – Written Order to Violator of Oklahoma Clean Air Act

27A O.S. § 2-5-110:

A. In addition to any other remedy provided for by law, the Department may issue a written order to any person whom the Department has reason to believe has violated, or is presently in violation of, the Oklahoma Clean Air Act or any rule promulgated by the Board, any order of the

Department or Council, or any condition of any permit issued by the Department pursuant to the Oklahoma Clean Air Act, and to whom the Department has served, no less than fifteen (15) days previously, a written notice of violation. The Department shall by conference, conciliation and persuasion provide the person a reasonable opportunity to eliminate such violations, but may, however, reduce the fifteen-day notice period as in the opinion of the Department may be necessary to render the order reasonably effectual.

B. Such order may require compliance immediately or within a specified time period or both. The order, notwithstanding any restriction contained in subsection A of this section, may also assess an administrative penalty for past violations occurring no more than five (5) years prior to the date the order is filed with the Department, and for each day or part of a day that such person fails to comply with the order.

C. Any order issued pursuant to this section shall state with specificity the nature of the violation or violations, and may impose such requirements, procedures or conditions as may be necessary to correct the violations. The Department may also order any environmental contamination having the potential to adversely affect the public health, when caused by the violations, to be corrected by the person or persons responsible.

D. Any penalty assessed in the order shall not exceed Ten Thousand Dollars (\$10,000.00) per day for each violation. In assessing such penalties, the Department shall consider the seriousness of the violation or violations, any good faith efforts to comply, and other factors determined by rule to be relevant. A final order following an enforcement hearing may assess an administrative penalty of an amount based upon consideration of the evidence but not exceeding the amount stated in the written order.

E. Any order issued pursuant to this section shall become a final order, unless no later than fifteen (15) days after the order is served the person or persons named therein request in writing an enforcement hearing. Said order shall contain language to that effect. Upon such request, the Department shall promptly schedule the enforcement hearing before an Administrative Law Judge for the Department and notify the respondent .

F. At all proceedings with respect to any alleged violation of the Oklahoma Clean Air Act, or any rule promulgated thereunder, the burden of proof shall be upon the Department.

G. Nothing in this section shall be construed to limit the authority of the Department to enter into an agreed settlement or consent order with any respondent.

Section 2-5-114 – Establishment of Program for Implementation and Enforcement of Federal Emission Standards

27A O.S. § 2-5-114:

A. The Department shall have the authority to establish a program for the implementation and enforcement of the federal emission standards and other requirements under Section 112 of the Federal Clean Air Act for hazardous air pollutants and for the prevention and mitigation of accidental releases of regulated substances under Section 112(r) of the Federal Clean Air Act.

1. Except as otherwise provided by paragraph 2 of this subsection, to assure that such program shall be consistent with, and not more stringent than, federal requirements:

a. any rule recommended by the Council and promulgated by the Board regarding hazardous air pollutants and regulated substances shall only be by adoption by reference of final federal rules, and

b. shall include the federal early reduction program under Section 112(i) (5) of the Federal Clean Air Act.

2. The Board may promulgate, pursuant to recommendation by the Council, rules which establish emission limitations for hazardous air pollutants which are more stringent than the applicable federal standards, upon a determination by the Council that more stringent standards are necessary to protect the public health or the environment.

Subject: Request for Parallel Processing of Proposed Oklahoma Regional Haze State
Implementation Plan Revision

Dear Mr. Curry:

In a letter to your predecessor dated March 30, 2011, Governor Mary Fallin appointed me as her designee for the purpose of submitting documents to the U.S. Environmental Protection Agency (EPA) for approval and incorporation into the State Implementation Plan (SIP) for the State of Oklahoma. The Oklahoma Department of Environmental Quality (DEQ) is given the primary responsibility and authority to prepare and implement the state's air quality management plan under Oklahoma Statutes.

Accordingly, the State of Oklahoma submits for your review under Section 110 of the federal Clean Air Act and 40 CFR Part 51, a proposed revision of the Oklahoma Regional Haze State Implementation Plan submitted in February 2010, and the associated evidence as required by 40 CFR 51, Appendix V, 2.1. This revision of the Regional Haze SIP addresses EPA's regional haze regulations, 40 CFR § 51.308, as they relate to the BART determination for American Electric Power/Public Service Company of Oklahoma ("AEP/PSO") Northeastern Power Station Units 3 & 4. This revision implements relevant portions of a settlement agreement reached among EPA, the Oklahoma Secretary of Environment, DEQ, U.S. Department of Justice, AEP/PSO and the Sierra Club, and is intended to replace the related EPA-issued Federal Implementation Plan (FIP), *see* 76 Fed.Reg. 81727 (Jan. 27, 2012), as it relates to the subject facility. The proposed SIP revision also includes revisions to affected portions of the Interstate Transport SIP for the 1997 8-hour Ozone and 1997 PM_{2.5} NAAQS, submitted in May 2007 (including supplemental information submitted in November 2007), and is intended to replace the related EPA-issued FIP as it relates to the subject facility.

We are requesting parallel processing of this submittal in accordance with the settlement agreement and Janet McCabe's 10/31/2011 Memo (Subject: Options and Efficiency Tools for EPA Action on State Implementation Plan Submittals). DEQ has scheduled a public hearing regarding the SIP revision for May 20, 2013. DEQ has enclosed a draft notice of the public hearing and opportunity to comment on the proposed SIP revision, as required by 40 CFR § 51.102. Notice will be posted on DEQ's Regional Haze webpage by Tuesday, April 19, 2013, and provided via e-mails to those persons who have expressed an interest in SIP revisions and have supplied their e-mail addresses. Information on the Public Notice, the proposed revision,

Mr. Ron Curry
U.S. EPA – Region VI
March 20, 2013

and related documents will also be prominently displayed on DEQ's main Air Quality Division webpage. In addition, a notice will be published in at least one newspaper of general circulation at least 30 days before the hearing. The Review, Consultations and Comments Section of the proposed Regional Haze SIP Revision describes DEQ's plans for consultation and for receiving, posting, and responding to any comments received.

Simultaneous with this request, DEQ is providing electronic access to the proposed SIP revision and notification of a consultation opportunity to the designated Federal Land Manager (FLM) staff in accordance with the consultation provisions of 40 CFR § 51.308(i)(2), and to clean air agency staff for bordering/potentially affected states in accordance with 40 CFR § 51.308(d)(3)(i). Following evaluation of all comments received, Oklahoma will respond to comments and finalize and submit the Regional Haze SIP revision in accordance with EPA regulations and the referenced settlement agreement. As required by 40 CFR § 51.103(a) and regional guidance, we have included with this letter two paper copies and an identical electronic copy (on CD) of the submittal. The submittal is also currently available on the DEQ webpage set up for FLM's and States' access at:

Subject: Public Participation Procedures for Oklahoma SIP Review/Revision Submittals

Dear Mr. Diggs:

Oklahoma has traditionally complied with the public notice requirements of 40 CFR Part 51 for non-rule SIP components by using newspaper notice. In this letter, we are notifying you of our intention to use internet notice to provide this notification for these components. We have attached our public participation procedures, that include internet notice, for State Implementation Plan (SIP) Review/Revision submittals under 40 CFR Part 51, as provided for under 40 CFR §51.102(g). The procedures apply primarily to non-rule SIP components, since procedures for adopting agency rules are prescribed by statute and regulation. [For additional details see recently-approved Infrastructure Certification(s).]

These internet posting procedures would be used for all future SIP Reviews/Revisions submittals, including Oklahoma's CAA §110(a)(2) Infrastructure Certification for the 2008 Lead NAAQS, which is currently undergoing internal and EPA Region 6 staff consultation. The public participation procedures document the agency's wider use of electronic dissemination of program information, and lowers emphasis on the use of more costly and narrower/less effective newspaper publication and/or direct mailing of such notices. In accordance with EPA's Guidance Memo entitled, *Regional Consistency for the Administrative Requirements of State Implementation Plan Submittals and the Use of "Letter Notices,"* (April 6, 2011), the State has determined that the public has routine and ready access to the electronic publishing venues provided by DEQ. The procedures provide additional notice methods (e.g., direct mail and/or published newspaper notice) for use if a particular action is likely to be of concern to a particular group or community that does not have routine and ready access to electronic notifications.

If you have questions, please contact Ms. Cheryl Bradley, Manager, AQD Rules and Planning Section, or Mr. Brooks Kirlin, AQD Rules and Planning Section, at (405) 702-4100.

Sincerely,

Eddie Terrill

OKLAHOMA DEPARTMENT OF ENVIRONMENTAL QUALITY
Procedures for Notice of Opportunity for Public Hearing and Comment
Oklahoma SIP Review/Revision Submittals

Background

A State Implementation Plan (SIP) identifies how that state will attain and/or maintain the primary and secondary National Ambient Air Quality Standards (NAAQS). The SIP contains state regulations and procedures, source-specific requirements, and non-regulatory items such as plans and inventories. The federally enforceable SIP for Oklahoma is compiled in 40 CFR Part 52, Subpart LL. As documented in previously approved SIP submittals under the Clean Air Act (CAA) (including recent Infrastructure Certifications under CAA Section 110(a)(1) and (2)), the Oklahoma DEQ is given the primary responsibility and authority to prepare and implement Oklahoma's air quality management plan under the Oklahoma Environmental Quality Act and the Oklahoma Clean Air Act (*see generally* 27A Okla. Statutes (O.S.) § 2-1-101, *et seq.*).

In addition to these governing statutes, the bulk of Oklahoma's SIP consists of DEQ's Air Quality Rules, which are enacted under the agency, public, gubernatorial, and legislative review processes of the Oklahoma Administrative Procedures, Open Records, and Open Meetings Acts (*see generally* 75 O.S. §§ 250 through 323, 51 O.S. §§ 24A.1 through 24A.29, and 25 O.S. §§ 301 through 314, respectively) and associated administrative rules. SIPs are reviewed and revised by the state from time to time as necessary to accommodate changes in State and Federal statutes, rules, policies, and program requirements. For instance, the CAA requires EPA to periodically review the NAAQS, and Section 110(a)(1) of the CAA requires the state to then review and revise the SIP as necessary each time a NAAQS is issued or revised ("Infrastructure Certification"). Many of these revisions require changes to Title 252, Chapter 100 of the Oklahoma Administrative Code (DEQ's Air Quality Rules) that, once are finalized, are submitted to EPA for formal inclusion in Oklahoma's SIP.

The SIP also includes non-rule components, such as program & implementation descriptions, environmental evaluation documents, and certain individual control measures relied upon to maintain the NAAQS. The State's Regional Haze Plan and recent Infrastructure Certifications are examples of such submittals. After any necessary rulemaking and/or individual proceedings and staff evaluations are completed, a draft SIP document is prepared for submittal to EPA under the Governor's or the Executive Director's signature as appropriate. [For additional details see recently-approved Infrastructure Certification(s).] The remainder of this document describes DEQ's related public participation procedures.

Public Participation Procedures

The Oklahoma Department of Environmental Quality (DEQ) will use the following public participation procedures for State Implementation Plan (SIP) Review/Revision submittals. DEQ has prepared this document to describe related public participation procedures to be carried out under 40 CFR Part 51, as approved by EPA under 40 CFR § 51.102(g).

1. DEQ will provide public notification of the opportunity for participation by prominently posting a public notice on the DEQ web site. At a minimum, the notice will provide a 30-day period and procedures for submission of written comments on the proposed submittal, and the opportunity for a public hearing. The notice will provide the web address for the proposed submittal, and instructions for viewing or obtaining a hard copy. Attachment 1 provides an example of a public notice. At the time that the notification is posted, notification will also be provided to EPA's Region VI office in Dallas and to individuals and entities that have requested email notification. The DEQ may provide additional methods of notice (e.g., direct mail or a published newspaper notice), if the Director believes that significant public interest or other circumstances warrant additional notice¹. For SIP revisions/submissions, the notice will also inform the public that such SIP will be submitted to EPA for approval into the SIP.

If the Director believes there is significant public interest, the notice will provide the date, place, and time for a scheduled public hearing. The following statement may be included in the notice: "If no request for a public hearing is received by the close of the 30-day notice period, the hearing will be cancelled, and a notice announcing that the hearing has been cancelled will be posted on this web site (*AQD website*) at least 24 hours prior to scheduled time for the hearing. You may call 405-702-4100 to find out if the hearing has been cancelled."

If the Director believes there is likely not sufficient public interest to schedule a public hearing, the notice will describe the opportunity and procedures to request a public hearing during the 30-day notification period.

2. If a public hearing is held, it will be conducted under the requirements of OAC 252:4, DEQ's Rules of Practice and Procedure, and the Oklahoma Administrative Procedures Act.
3. Following the close of the comment period and/or public hearing, DEQ will prepare a record of the comments and/or hearing, including a copy of all written comments, a list of all hearing attendees, a summary or transcript of oral comments, and a response to comments, as appropriate. A copy of the record will be provided to EPA upon request.

¹ For example, if a particular action is likely to be of concern to a particular group or community that does not have routine and ready access to electronic notifications.
