

Oklahoma VW Settlement: Non-Road Program

A Grant Solicitation has been released for the Oklahoma VW Settlement Non-Road Program. This program is funded by the Volkswagen State Environmental Mitigation Trust Fund. Information regarding the program is below; more details are available in the [Non-Road Grant Solicitation](#) document. All final applications for potential projects must be received before September 30, 2023.

Program Summary

The Oklahoma Department of Environmental Quality will use approximately \$3,500,000 from the Oklahoma Volkswagen Settlement Trust to implement a reimbursement program to replace or repower four categories of eligible non-road equipment. The goal of this program is to reduce nitrogen oxide emissions by replacing or repowering older equipment with newer diesel or alternative fueled equipment. This is a competitive funding opportunity available to government and non-government applicants. A cost-share is required for funding under this program.

Eligibility

- Freight Switchers
- Ferries and Tugs
- Airport Ground Support Equipment
- Forklifts and Port Cargo Handling Equipment

FAQs

1. **When will applications be accepted?**
July 10, 2023 through September 30, 2023.
2. **Does submitting an application mean I will receive funding?**
This is a competitive opportunity. The scoring criteria is detailed in the [Non-Road Grant Solicitation](#).
3. **Which fuel types can be used?**
This varies by equipment category and is detailed in the [Non-Road Grant Solicitation](#).
4. **Is fueling infrastructure allowed?**
No.
5. **What happens to the equipment I am replacing?**
The old equipment must be made inoperable and scrapped.
6. **How much is the reimbursement?**
The reimbursement varies by equipment category and is detailed in the [Non-Road Grant Solicitation](#)

Non-Road Program Maximum Percentage of Reimbursable Cost						
Category	Government			Non-Government		
	Diesel	Alt Fuel	Electric	Diesel	Alt Fuel	Electric
Freight Switchers						
Replace	75%	75%	75%	25%	25%	50%
Repower	75%	75%	75%	40%	40%	50%
Ferries/Tugs						
Replace						
Repower	75%	75%	75%	40%	40%	50%
Airport Ground Support Equip						
Replace			75%			50%
Repower			75%			50%
Forklifts and Port Cargo Handling Equip						
Replace			75%			50%
Repower			75%			50%
