On September 30, 2021, Strayhorn Marina applied for a CVA grant to purchase a brand-new pump-out boat due to the expansion of boat slips and renters. The marina was awarded CVA grant funds on June 23, 2022. The boat cost less than originally quoted during the CVA process. The total cost is \$131,460.64 and the marina receives 75% of the new lower cost (\$98,595.48).

Tenkiller Ferry Lake is a 12,900 acre lake known for its natural shoreline and beautiful clear water. Strayhorn Landing lies on the southern end of the lake, the marina has the nearest access to I-40 via Gore, Oklahoma. Strayhorn Marina and Landing is a unique community on Lake Tenkiller in the beautiful Cookson Hills of eastern Oklahoma.

Strayhorn Marina is currently at full capacity with annual slip renters and the demand for the pump-out boat has increased to the point of need for this type of service. The marina anticipated building additional boat slips and would like to ensure this service available to current and future customers with the growth of the marina. The marina has approximately 240 annual-boat slip renters that are greater than 20 feet with potential onboard facilities.

November 30, 2022, Cheryl Dirck did a site assistance visit to verify the pump-out boat was within DEQ regulations. Mr. Randal Rogers, the manager of Strayhorn Marina, worked with the boat dealership to purchase a reasonable priced pump-out boat. The pump-out boat is in storage at this time due to off season and it was not necessary to put it on the lake during the winter months. The pump-out boat is within the guidelines of the CVA grant. Ms. Dirck reviewed the receipts, and all dates are within the parameters of the CVA grant timeline. Strayhorn Marina is eligible for their awarded CVA grant funds.
