

### Clean Vessel Act Site Visit Record

<b>SAV Date:</b>	July 21, 2023
<b>DEQ Staff:</b>	Cheryl Dirck – OBRA
<b>Marina Name:</b>	Strayhorn Marina
<b>Marina Address:</b>	446547 E. 965 Road
<b>City/County/State/Zip:</b>	Gore/Sequoyah/OK/74435
<b>Marina Contact Name/Phone:</b>	Randal Rogers/918-776-7700
<b>Date of Award/Award Number:</b>	June 23, 2022
<b>Amount of Award:</b>	\$40,125.00/F22AP01989

---

On September 30, 2021, Strayhorn Marina applied for a Clean Vessel Act (CVA) grant to add a pump-out station and a few electrical outlets. The marina received \$40,125.00, or 75% of the projected cost of \$53,500.00. The total expenses post-construction was \$53,882.70.

Tenkiller Ferry Lake is a 12,900-acre lake known for its natural shoreline and beautiful clear water. Strayhorn Marina lies on the southern end of the lake, with the nearest access to I-40 via Gore, Oklahoma. The marina has the capability to hold up to 258 boats and approximately 10% of the boats at the marina contain on board sanitary facilities. The closest pump-out facility is more than two miles from the marina. Strayhorn Marina is currently at full capacity with slip renters and the demand for the pump-out station has increased substantially. The marina has approximately 240 annual-boat slip renters that are greater than 20 feet with potential onboard facilities. The marina anticipated building additional boat slips and would like to ensure the pump-out service is available to current and future customers with the growth of the marina.

July 21, 2023, Cheryl Dirck did a site assistance visit to verify the installation of the pump-out station and that it was within DEQ regulations. The original proposed project included the installation of the pump-out system and a few minor electrical outlets. To meet DEQs regulatory requirements the marina learned that they needed to replace the old lift station with a larger capacity system and add additional lateral lines. The pump-out station, lateral lines, and lift station meet the requirements for CVA reimbursement. Ms. Dirck reviewed the receipts, and all dates are within the parameters of the CVA grant timeline. Strayhorn Marina is eligible for their awarded CVA grant funds.
