Re: Administrative Review Complete
Tier III Permit Application
Regulated Medical Waste Processing Facility
Oklahoma County

Dear Mr. Wignarajah:

On February 3, 2020 the Oklahoma Department of Environmental Quality (DEQ) received a Tier III Application for OK Medical Waste Disposal (OKMWD) to construct and operate a regulated medical waste processing facility in Harrah, OK. Pursuant to Oklahoma Administrative Code (OAC) 252:4-7-7 (Rules of Practice and Procedure), the Solid Waste Permitting Unit conducted an administrative completeness review with respect to the application and found it to be administratively complete.

The notice of Application filed was published in the Choctaw Times on February 5, 2020. DEQ received the proof of publication on February 12, 2020, meeting the twenty day requirement of OAC 252:04-7-13(d).

The application has moved into technical review status for the evaluation of compliance with applicable solid waste program rules. The maps provided in the application are noted as "preliminary, not for construction or implementation." Please submit the final draft of the design drawings, stamped by a professional engineer.

If you have any questions please contact Kaylee Shiplet of my staff at (405) 702-5196.

Sincerely,

A handwritten signature in black ink, appearing to read 'Hillary Young', is written over the typed name.

Hillary Young, P. E.
Chief Engineer
Land Protection Division
