Type of final permit or permit action being sought: The applicant seeks a Tier II Permit to grind up Typel and Type II feedstock material for worm composting.

Activities to be regulated if the application is approved: The applicant is seeking a new permit to compost Type I and Type II Feedstock which include grass clippings, straw, leaves, newspapers, cardboard, fruits, vegetables, waste from salad bars, cannabis from medical marijuana growers, dispensers and processors. Waste from the medical marijuana facilities is defined in 63 O.S. 428 and we will be also processing the stalks, stems, fan leaves, root balls and seeds as well. All worm castings will be collected and available for sale. There will be approximately 10 tons of feedstock brought in annually to be ground up and composted by worms. The facility will be clean closed in accordance with the proposed closure plan.

Statutes and Rules: the DEQ will review the application for compliance with the Environmental Quality Code, including the Solid Waste Management Act, Title 27A of Oklahoma Statutes, Section 2-10-101, et seq., and the rules of the DEQ, Oklahoma Administrative Code, Title 252, Chapters 4 and 515.
