SECTION E - GROUNDWATER MONITORING

1.0 GROUNDWATER MONITORING

The requirements for groundwater monitoring specified in 40 CFR 270.14(c) and 40 CFR 264.90(a)(2) are not applicable to the CPCC plant. These requirements are applicable to “owners or operators of hazardous waste facilities containing a regulated unit except as provided in §264.90(b).” There are no “regulated units” at the CPCC plant. A “regulated unit” is defined as a surface impoundment, waste pile, land treatment unit, or landfill that received hazardous waste after July 26, 1982.
