SECTION O – PUBLIC PARTICIPATION

1.0 PUBLIC PARTICIPATION DOCUMENTATION

40 CFR Part 124.31 as incorporated by reference at AOC 252:205-3-2(a)(2) requires that applicants seeking a renewal of a RCRA Part B permit with significant change to facility operations to provide an opportunity for the public to gain knowledge of and ask questions about the application prior to submission of the application. Central Plains Cement Company (CPCC) dba Tulsa Cement LLC is not submitting any significant changes to the permit renewal application. Nor is CPCC requesting a standardized RCRA permit. Therefore, the requirement for a public meeting prior to submitting the permit renewal application is not applicable.

40 CFR Part 124.32 as incorporated by reference at OAC 252:205-3-2(a)(2) requires that applicants for renewal of a RCRA Part B permit provide an opportunity for the public to gain knowledge of and ask questions about the application upon submission of the application.

CPCC will comply with the following public notice requirements:

- Publish public notice within the time frame specified by the ODEQ. Public notice will include the following information:
 - The name and telephone number of CPCC's contact person;
 - The name and telephone number of the ODEQ contact's office, and a mailing address to which information, opinions, and inquiries may be directed throughout the permit review process;
 - An address to which people can write in order to be put on the facility mailing list;
 - (The location where copies of the permit application and any supporting documents can be viewed and copied;
 - A brief description of the facility and proposed operations, including the address or a map (e.g., a sketched or copied street map) of the facility location on the front page of the notice; and
 - The date that the application was submitted.
- Place the application in a location accessible by the general public for viewing and copying.

CPCC will follow all public notice requirements as directed by the ODEQ.

2.0 LANDOWNER NOTIFICATION FORM

CPCC is the owner/operator of their property. The Fuel Quality Waste (FQW) is received, stored and blended in storage tanks on property located within the CPCC property boundary that is owned/operated by Systech Environmental Corporation (Systech). Systech transfers FQW via pipeline to the kilns located on the CPCC facility where it will be burned as an alternative fuel. The Landowner Notification form is included as Attachment O-1 to this section.
