The Oklahoma Department of Environmental Quality (DEQ) received an application from the City of Ada for a new solid waste permit to construct, operate, and close a Municipal Solid Waste (MSW) Transfer Station, located in a tract of land lying in the Northeast Quarter (NE/4) of the Northwest Quarter (NW/4) of Section Twenty-four (24), Township Four (4) North, Range Five (5) East of the Indian Meridian, Pontotoc County, Oklahoma, and being more particularly described below. The application was filed by the City of Ada on August 15, 2019.

The DEQ has tentatively found that the application meets the requirements of Title 27A of the Oklahoma Statutes, Section 2-1-101, *et seq.*, Section 2-10-101, *et seq.*, and rules of the DEQ, Oklahoma Administrative Code (OAC), Title 252, Chapters 4 and 515, and has prepared a draft permit for public review.

The draft permit and its conditions propose to allow City of Ada to construct, operate, maintain and close a solid waste transfer station that will accept and transfer approximately 150-200 tons daily of solid waste, including household waste, commercial solid waste, construction waste, and demolition waste. The waste collected at the transfer station will be transferred to a licensed municipal solid waste landfill.
