

Draft Plain Language Notice

TO ALL INTERESTED PERSONS AND PARTIES:

Systech Environmental Corporation has applied to the Oklahoma Department of Environmental Quality (DEQ) for the renewal of its Resource Conservation and Recovery Act (RCRA) Operations Permit No. 000025452. The Renewal Permit would authorize the continued operation of a hazardous waste management facility located at 2701 N. 145th Ave. Tulsa, OK 74116, including receiving, blending and storage of hazardous waste fuel quality solvents. DEQ issued a Draft Permit which may be viewed, along with the application, on DEQ's website at <https://www.deq.ok.gov/land-protection-division/permit-public-participation-process/> and at the Catoosa Public Library located at 105 E. Oak, Catoosa, OK 74015. The public may submit written comments to DEQ within 45-days from the date of this notice. Additional information concerning this application is contained in the public notice section of this newspaper.
