Re: Proposed Permit
Tier III Permit Modification Application
Enso Solutions Composting Facility, Permit #3555065
Oklahoma County

Dear Mr. Golladay:

The Department of Environmental Quality (DEQ) received the Tier III Modification Application (Modification) for Enso Solutions Composting Facility (Enso Solutions), dated November 11, 2020. DEQ issued a notice of deficiency (NOD) on January 12, 2021. Additional information was submitted via email on January 22, January 26, March 22, March 23, March 30, and April 12, 2021. The application was determined to be administratively and technically complete by DEQ, and a Draft Solid Waste Permit was issued on April 13, 2021.

Public notice of the Draft Permit was provided in *The Oklahoman* on May 6, 2021, initiating a 30- day public comment period and opportunity to request a public meeting. DEQ did not receive any comments on the draft permit. The next step in the permitting process is issuance of a Proposed Solid Waste Permit and public notice providing a twenty (20) day opportunity to request an administrative hearing.

Enclosed is a copy of the Proposed Permit for your review, together with instructions for the preparation, publication, and certification of the legal notice as required with all Tier III applications. As noted in the instructions, please submit a draft of the legal notice to DEQ for review, prior to publication.

Should you have any questions, please contact Kaylee Shiplet of my staff at (405) 702-5196 or Kaylee.shiplet@deq.ok.gov.

Sincerely,

Hillary Young, P.E.
Chief Engineer
Land Protection Division
