

**TULSA CEMENT LLC  
DBA CENTRAL PLAINS CEMENT COMPANY  
TULSA, OKLAHOMA**

**RCRA OPERATIONS PERMIT**

**FACT SHEET**

Type of Action: Oklahoma Department of Environmental Quality (DEQ) Resource Conservation and Recovery Act (RCRA) renewal Permit for managing hazardous waste under the Hazardous and Solid Waste Amendments to RCRA of 1984 and the Oklahoma Hazardous Waste Management Act (OHWMA).

Type of Facility: Tulsa Cement LLC DBA Central Plains Cement Company owns and operates a hazardous waste management facility whose activities include operating two dry process rotary cement kilns to produce Portland cement from raw limestone, sand, and shale, as well as various raw material substitutes. The primary fuel fed to both kilns is fuel quality waste, which is essentially a mixture of hazardous waste solvents from various industries such as paints, inks, plastics, oils, petrochemicals, pharmaceuticals, and coatings industries. All hazardous waste fuels burned in the kilns are supplied by the permitted hazardous waste storage facility Systech Environmental Corporation located within the property boundary of the Permittee.

Longitude: 95° 48' 54.36" West

Landowner: Tulsa Cement LLC Dba Central Plains Cement Company

Facility Operator: Tulsa Cement LLC Dba Central Plains Cement Company

Comment Period: 45 days from the date of publication

**Basis of the Draft Permit:**

On February 8, 2021, DEQ received a RCRA Part B Permit Renewal Application (Application) for the renewal of the Tulsa Cement LLC Dba Central Plains Cement Company RCRA Operations Permit. DEQ determined the Application to be administratively complete on May 13, 2021, at which time a technical review commenced. DEQ requested additional information in correspondence dated February 1, 2022. Tulsa Cement responded with additional information on March 30, 2022.

The requirements of OHWMA, the Oklahoma Administrative Code Hazardous Waste Management Regulations (OAC 252:205) as amended, RCRA, and Title 40 of the Code of Federal Regulations (40 CFR) have been met, and DEQ has prepared proposed permit conditions. The proposed Operations Permit allows the Permittee to continue managing hazardous waste in accordance with the Permit.

The administrative record supporting the potential permit conditions consists of the initial Application dated February 4, 2021, and all supplemental information submitted that relates to the Application or is referenced in the draft Permit and this fact sheet.

The proposed Operations Permit potential conditions incorporate the applicable requirements of OAC 252:205 and 40 CFR Part 270, and other such conditions as are required to achieve environmentally sound hazardous waste management.

**Information Resources**

Copies of the proposed draft permit conditions, this fact sheet, and the Application are available for review during normal business hours at the locations listed below:

Catoosa Public Library  
105 E. Oak Street #2090

<https://www.deq.ok.gov/land-protection-division/permit-public-participation-process/>

Telephone inquiries may be directed to:

DEQ: Hillary Young, Chief Engineer  
Land Protection Division, DEQ (405) 702-5100

Tulsa Cement: Adam McGhee, Environmental Manager  
Central Plains Cement, Tulsa Cement Plant (918) 398-2271

**Comment Period and Procedures**

Persons wishing to comment on the proposed permit conditions may submit written comments to DEQ at the address listed below. DEQ will consider and formally respond to all relevant comments in the issuance of the final permit decision. Comments should be directed to the appropriateness of the permit decision and the permit conditions, and should be factual in nature. All comments must be received at DEQ no later than forty-five (45) days after the publication of the Notice for the draft permit.

Hillary Young, P.E.  
Chief Engineer  
Land Protection Division  
Oklahoma Department of Environmental Quality  
707 N. Robinson, Ave,  
P. O. Box 1677  
Oklahoma City, OK 73101-1677

The applicable comment period and public hearing procedures may be found at OAC 252:4 and 40 CFR Part 124. The comment period during which written comments on the draft permit may be submitted extends for forty-five (45) days from the date of Notice of the proposed action.

**Notice of Final Determination**

DEQ will notify the applicant and each person who has submitted written comments or requested notice when the final permit decision is made. Within thirty (30) days after a RCRA permit decision has been made, any person who filed comments on the draft permit or participated in the public meeting/hearing may petition the Executive Director or DEQ to review any condition of the permit decision. The petition shall include a statement of the reasons supporting that review, including a demonstration that any issues being raised were raised during the public comment period, and when appropriate, a showing that the condition in question is based on a finding of fact or conclusion of law which is clearly erroneous, or an exercise of discretion or important policy consideration which DEQ should review. A petition to DEQ is a prerequisite to judicial review under OAC 252:205-3-2 which incorporates 40 CFR 124.19 and should be directed to the address listed below:

Scott Thompson, Executive Director  
Department of Environmental Quality  
707 N. Robinson Ave  
Oklahoma City, Oklahoma 73101-1677

If no comments are received during the comment period, the permit will become final and effective immediately upon issuance.
