

Farmland (ADM) Elevators Y&Z, Enid

Location: The Y&Z Elevators are located at 1001 North Brush Road, Enid, Garfield County, Okla. SW4 NE4 SE4 Section 32 Township 23 North, Range 6 West

Background: The site consists of two joined grain elevators capable of storing 37 million bushels of grain. Carbon tetrachloride was used for several decades as a fumigant to control pests. Gradual penetration of carbon tetrachloride in the subsurface has resulted in groundwater impacts.

Air: None addressed

Soil: No known soil contamination at this time.

Surface Water: No surface water in the immediate vicinity. An intermittent creek and retention lagoons exist within one mile downgradient to the east.

Groundwater: Groundwater flows to the east. Depth to water ranges between 15-20 ft. below ground surface.

Private/Public Wells: No wells have been identified

Vapor Intrusion to Indoor Air: No indoor air issues at this time. There are no buildings above the contaminant plume.

Key Questions:

- **Have all known groundwater contaminant plumes been adequately evaluated and delineated?** Currently being characterized
- **Has the site been sampled for an adequate list of analytes?** Yes
- **Does soil or waste need to be cleaned up?** No
- **Has the surface water been sampled?** The intermittent creek has been sampled annually, with no detections of COCs since 2011.
- **Has soil at the site been cleaned up to levels protective of groundwater?** Yes
