Recycling Plan Details:

Consumers in Oklahoma are able to return their used Igaming manufactured tablets free of charge for recycling through the program website at <http://www.alldaymall.com/about-recycling-your-tablet.html>. The program covers all Igaming branded covered devices including the Alldaymall branded tablet. Igaming offers this program to Oklahoma consumers through its partner Reverse Logistics Group Americas, Inc. (RLGA), and its Take-Back and Regulatory Compliance management system.

Consumers in Oklahoma can access the website and enter information about their location and equipment. Based on this information, a shipping label is generated, which the consumer can utilize to ship their used Igaming product for recycling free of charge. Consumers merely pack the product and ship it using the free shipping label (with the option of scheduling home pick-up for consumer convenience).

To find out more information about recycling Igaming covered devices, consumers may call toll free (866) 337-1078.

The Oklahoma Computer Equipment Recovery Act (Sections 5C- 5F) requires a manufacturer's recovery plan to contain the following:

Section 5 C. The recovery plan shall fully explain how the manufacturer will collect from a consumer and recover each covered devices that is labeled with the manufacturer's brand, at no charge to the consumer. The manufacturer's recovery plan under this subsection may use existing collection and consolidation infrastructure for handling covered devices and may include electronic recycling and repair shops, recyclers of other commodities, reuse organizations, nonprofit corporations, retailers, recyclers, or other suitable operations.

The Igaming program, as described above, provides free recycling for all Alldaymall branded covered devices. The program provides free shipping to the consumer and free recycling. The details of the program are explained above.

Section 5 D. The recovery plan shall provide for covered device collection services that are reasonably convenient and available, and designed to meet the collection needs of consumers in this state. Nonexclusive examples of collection methods that alone or in combination meet the convenience requirements of this section include:

1. A mail-back system, at no cost to the consumer, whereby the consumer can return a covered device through the mail, including, but not limited to, a system in which the consumer can go online, print a

prepaid shipping label, package the product, and schedule an at home pickup for shipment back to the manufacturer.

Igaming's recycling offering is a mail-back system with prepaid shipping labels for Oklahoma consumers and scheduled home pick-up.

Section 5E. If a manufacture does not offer a mail-back system, it shall submit for approval...

Not applicable, Igaming is offering a mail-back system.

Section 5F. The recovery plan shall also include a statement that the manufacturer will not dispose of covered devices in landfills or transfer covered devices to computer equipment recycling facilities that dispose of covered devices in landfills other than necessary incidental disposal in de minimis amounts.

Covered devices recovered through Igaming's US consumer recycling program are not disposed of in landfills other than necessary incidental disposal in de minimis amounts.

Section 5G. Each manufacturer operating or publishing a web site for providing product information about a covered device shall include information about collection and recovery for consumers and provide such information to the Department. The manufacturer shall also include such information in the packaging or accompanying the sale of the covered device.

Igaming maintains information on its recycling programs on its website at:
