Re: Cessation of Biosolids Application
Holly Refining and Marketing - Tulsa LLC
Tulsa East Refinery
EPA ID OKD990750960

Dear Mr. Hensch:

Holly ceased application of wastewater to the Flare Area and Walnut Grove Land Treatment Units (LTUs) on December 17, 2015. In accordance with Consent Order #15-215, Holly will submit a work plan to investigate potential impacts from wastewater application to the LTUs on or before February 15, 2016. Wastewater is now being managed with a belt press. The solids are being disposed offsite and the liquid is being returned to the wastewater process.

If you have any questions, or require additional information, please contact Jaime Looney at (918) 594-3210.

Respectfully;

Andrew Haar
Environmental Manager
Tulsa Refinery

Subject: Cessation of Biosolids Application

Dear Mr. Haar:

The Oklahoma Department of Environmental Quality (DEQ) has received the notification of "Cessation of Biosolids (wastewater) Application" to the Flare Area and Walnut Grove Land Treatment Units (LTUs) on December 22, 2015.

DEQ noted that:

- Wastewater is now being managed with a belt press;
- the solids are being disposed offsite and the liquid is being returned to the wastewater process.

DEQ also received the work plan to investigate potential impacts from wastewater application to the LTUs. The work plan is under review and will be addressed in a separate letter.

If you have any questions, please contact Orphius Mohammad at (405) 702-5118 or orphius.mohammad@deq.ok.gov.

Sincerely,

Orphius Islam Mohammad, Ph.D., P.E.
