

ODOT Former Edmond Salt Storage

Updated November 2, 2016

Location: The site is approximately 14 acres near I-35 & Memorial Rd in Edmond, Okla.

Background: The site is the former location where road salt was stockpiled and mixed prior to application. Salt is no longer stored at the site and the salt storage and mixing sheds have been demolished.

Air: No known issues.

Soil: Onsite soils have been impacted by salt.

Surface Water: No surface water in the immediate vicinity

Groundwater: Groundwater has been impacted by chlorides.

Private/Public Wells: The chloride plume is offsite and has impacted several private residential wells. Impacted private wells have subsequently been plugged.

Vapor Intrusion to Indoor Air: No vapor intrusion risk at this site.

Key Questions:

- **Have all known groundwater contaminant plumes been adequately evaluated and delineated?** Yes
- **Has the site been sampled for an adequate list of analytes?** Yes
- **Does soil or waste need to be cleaned up?** Yes, interim measures are being evaluated
- **Has the surface water been sampled?** No surface water in the vicinity
- **Has soil at the site been cleaned up to levels protective of groundwater?** No, interim measures are being evaluated.
