

**OKLAHOMA DEPARTMENT ENVIRONMENTAL QUALITY
NOTICE - APPLICATION FILED**

Application filed. A solid waste Tier III application has been filed with the Department of Environmental Quality (DEQ). Interested persons now have the opportunity to meet with DEQ and learn how and where they may participate in the permitting process.

Applicant: The applicant is Enso Solutions LLC located at 2701 Haindl Drive, Oklahoma City, OK 73129.

Type of final permit or permit action being sought: The applicant seeks to modify an existing solid waste composting facility permit.

Facility location: The Enso Solutions facility is located at 2701 Haindl Drive, Oklahoma City, OK 73129. See legal description below.*

Activities to be regulated if the application is approved: The Application proposes to modify Enso Solutions' existing composting facility permit #3555065 to allow for the acceptance and composting of food waste. Enso Solutions is also requesting a variance to the groundwater monitoring requirements of Oklahoma Administrative Code (OAC) 252:515-43-91 as detailed below. Enso Solutions composts all accepted waste utilizing an EF-20-IM in-vessel composting method from Green Mountain Technologies. The vessel allows the ability to compost approximately 0.7 tons of waste per day while minimizing odors, controlling pests, and eliminating surface water run off and/or contamination. The aforementioned vessel is fixed inside a 5,400 square foot fully enclosed warehouse that provides for further protection of the environment. The facility is located on approximately 1 acre with driveways and parking. The variance to OAC 252:515-43-91 has been requested to waive the groundwater monitoring requirements as all waste storage and processing of untreated wastes will occur entirely within the enclosed warehouse. Furthermore, the in-vessel method utilized eliminates the need to monitor groundwater as no processed or unprocessed waste will come in contact with groundwater.

Statutes and Rules: The DEQ will review the application for compliance with the Environmental Quality Code, including the Solid Waste Management Act, Title 27A of Oklahoma Statutes, Section 2-10-101, *et seq.*, and the rules of the DEQ, Oklahoma Administrative Code, Title 252, Chapters 4 and 515.

Permitting procedures explained: On request, a representative of DEQ will chair a meeting to explain the steps of DEQ's permitting process to interested persons. If a meeting is requested, there will be a discussion explaining when oral and written public comments

can be made on the proposal. Administrative hearing opportunities will also be discussed. To request a process meeting, send a written request to the DEQ representative named below within 30 days after the date this notice is published. Please note this is not a meeting to submit public comments. Its purpose is to advise interested persons on participation opportunities during the permitting process. For more information about this process meeting, please contact the DEQ representative named below.

Locations where application may be reviewed:

1. Locally at Oklahoma City – City Hall at 200 N. Walker Ave. Oklahoma City, OK 73102.
2. DEQ’s website at <https://www.deq.ok.gov/land-protection-division/permit-public-participation-process/>.

For more information, contact:

1. For applicant: Matt Golladay at 2701 Haindl Drive, Oklahoma City, OK 73129 or 405- 493-9392.
2. For DEQ: Hillary Young, P.E., Chief Engineer, DEQ, Land Protection Division, P. O. Box 1677, Oklahoma City, OK 73101-1677; (405) 702-5188; Fax No. (405) 702-5101.

***Legal description of site:** All of Lots one (1), two (2), three (3), and four (4) in Block three (3) of the Akin Addition, Oklahoma City, Oklahoma according to the recorded plat thereof; located in the SW/4 of Section 11 of Township 11 North and Range 03 West.
