Re: Systech Environmental Corporation
RCRA Hazardous Waste Permit Renewal Application
Permit Number: 000025452
EPA ID No. OKR000025452

Dear Mr. Sparks:

On February 5, 2021, the Land Protection Division of the Department of Environmental Quality (DEQ) received the above referenced permit renewal application (Application) dated February 4, 2021, for the renewal of the Systech Environmental Corporation (Systech) Operations Permit. The Application was reviewed for administrative completeness in accordance with Title 40 of the Code of Federal Regulations (40 CFR) parts 264 and 270, the Oklahoma Hazardous Waste Management Act, 27A O.S. §§ 2-7-101 to -134, Oklahoma Administrative Code (OAC) 252:4 and OAC 252:205, and DEQ determined the Application to be administratively complete on May 13, 2021.

DEQ reviewed the Application for technical adequacy in accordance with the applicable rules and regulations and issued a notice of deficiency (NOD) in correspondence dated February 1, 2022. On March 21, 2022, DEQ received Systech's NOD response dated March 18, 2022. Systech has appropriately addressed each NOD item and has provided all of the requested information. DEQ has completed its technical review of the Application and supplemental information and finds the Application to be technically complete.

Enclosed is a courtesy draft of the permit for Systech to review and submit comments. The enclosed courtesy draft also provides suggested language for the public notices and additional instructions for publishing and broadcasting the notices. These notices will announce the opening of a forty-five (45) day comment period during which the public may comment on the permit language or request that a public meeting be held. These notices are for your review and not to be published at this time.

Please review this draft and all attachments and respond with any comments or suggestions within thirty (30) days of your receipt of this document. Also, please be advised that the conditions of the existing permit shall remain in full effect until the renewal permit is issued.

A handwritten signature in black ink, appearing to be the name of the official.
