

**EXCERPTS FROM THE OKLAHOMA ADMINISTRATIVE CODE:  
CHAPTER 515 – MANAGEMENT OF SOLID WASTE**

**252:515-3-6. Permit transfer**

(a) **Transfer required.** If the ownership of a disposal facility is assumed by a new entity, the permit must be transferred from the previous owner/operator ("transferor") to the new owner/operator ("transferee").

(b) **Exception.** Changes in corporate ownership from majority stock transfers do not require a permit transfer. However, such changes require notice to the DEQ and submittal of an approved disclosure statement meeting the requirements of OAC 252:515-3-31(g).

(c) **Transfer requirements.** Permits may be transferred from the transferor to the transferee upon the following conditions:

- (1) the transferor has submitted a written request to the DEQ for transfer of the permit to the transferee;
- (2) the transferee has submitted an approved disclosure statement meeting the requirements of OAC 252:515-3-31(g);
- (3) the transferee has, if required, established an approved financial assurance mechanism in an appropriate amount and appropriately funded;
- (4) the transferee has agreed in writing to comply with:
  - (A) all permit conditions;
  - (B) approved plans and specifications;
  - (C) the Oklahoma Solid Waste Management Act and/or Waste Tire Recycling Act, as applicable;
  - (D) the rules in this Chapter; and
  - (E) any final orders issued pursuant thereto;
- (5) the transferee has complied with OAC 252:515-3-33; and
- (6) the facility meets the compliance requirements of OAC 252:4-7-15. In lieu of demonstrating substantial compliance, the parties to the transfer may enter into a Consent Order with the DEQ to schedule compliance.

(d) **Transferor responsible.** Until such time as the DEQ approves transfer of the permit to the transferee, the transferor shall remain responsible for the operation of the facility.
