Re: Tier III Proposed Solid Waste Permit
Tier III Permit Application – New Commercial Regulated Medical Waste Processing Facility
OK Medical Waste Disposal
Oklahoma County

Dear Mr. Wignarajah:

The Oklahoma Department of Environmental Quality (DEQ) received the Tier III permit application for the construction of a new commercial regulated medical waste processing facility on February 3, 2020 with supplemental information submitted on February 12, 2020 and March 23, 2020. The application was determined to be administratively and technically complete by DEQ, and a Draft Solid Waste Permit was issued on April 21, 2020.

Public notice of the Draft Permit was provided in the Choctaw times on April 29, 2020, initiating a 30- day public comment period and opportunity to request a public meeting. DEQ received comments from OK Medical Waste Disposal to the Draft Permit on May 12, 2020. The comments identified errors in the draft permit and the revisions are reflected in the proposed permit. The next step in the permitting process is issuance of a Proposed Solid Waste Permit and public notice providing a twenty (20) day opportunity to request an administrative hearing. Enclosed is the Proposed Solid Waste Permit and Response to Comments.

Please prepare and submit a draft notice of proposed permit to DEQ for review and approval; enclosed is a template with instructions for your reference. Should you have any questions, please contact Kaylee Shiplet of my staff at (405) 702-5196.

Sincerely,

Hillary Young, P.E.
Chief Engineer
Land Protection Division
