

PLUMBING PROFILE INFORMATION

NOTE! Complete for each school/facility building. For additional information, see the USEPA publication, "The 3Ts for Reducing Lead in Drinking Water in Schools"

Name of School/Facility: _____

Grade Levels or Ages: _____ Building Name _____

Address: _____

City _____ Zip Code _____

Lead Sampling Coordinator: _____ Date: _____

BACKGROUND INFORMATION

1a. What year was the original building constructed?

1b. Have any buildings or additions been added to the original facility? Yes No

2. If the building was constructed or repaired after 1986, was lead-free plumbing and solder utilized? Yes No Unknown

If yes, what type of solder was used? _____

Document all known locations where lead solder was used;

3. Where are the most recent plumbing repairs and replacements?

Location

Description

PLUMBING PROFILE INFORMATION

4. With what materials are the service connection(s) made of (the pipe(s) that carries water to the facility from the public water system's main line) and where is it located (this is a point of entry location)?

Material

Location

5. Is there a point of entry or point of use treatment in use? Yes No

If yes;

Type

Location

6. Are there tanks in your plumbing system (pressure tanks, gravity storage tanks)?

Yes No

7. Does the facility have a filter maintenance and operation program? Yes No

If yes, who is responsible for this program: _____

What is the process for adding filters? _____

8a. Have accessible screens or aerators on the outlets that provide drinking water been cleaned? Yes No

8b. Does the facility have a screen or aerator maintenance program? Yes No

9. Have there been any complaints about bad (metallic) taste? Yes No

PLUMBING PROFILE INFORMATION

9. (Continued) If yes, where:

Location(s)

_____	_____
_____	_____
_____	_____

10a. Review records and consult with the public water supplier to determine whether any water samples have been taken in the buildings for contaminants:

Name of contaminant(s): _____

Concentration(s) found: _____

pH Level: _____

10b. Is water testing done regularly at the building? Yes No

Additional Information

- 1. Are blueprints of the building available? Yes No
- 2. Are there known plumbing dead ends, low use areas, existing leaks or other problem areas? Yes No
- 3. Are renovations planned for any of the plumbing system? Yes No

Additional Information:
