PRIOR TO COLLECTION

- Plan enough time to complete all sampling; THM & HAA must be collected on the same day and returned within 48 hours of collection.
- Ensure the Sample Kit has the following items:
  - Chain of Custody form
  - three 40mL amber glass bottle per collection point
  - three barcode labels
  - a return mailing label (See instructions on back)
  - cooler for return shipping

NOTE! Sample vials are pre-filled with preservatives 25mg ascorbic acid & 200mg maleic acid. Do not rinse out! If skin contact occurs, flush with water for five minutes.

SAMPLE COLLECTION

1. Allow water from tap to run for five minutes then reduce flow to slow, steady stream.
2. Fill to the neck of the bottle then use the vial cap to carefully transfer the remaining sample to the vial until a positive meniscus forms (see figure to the right)
3. Replace bottle cap and tighten carefully.
4. Allow vial to sit for 30 seconds then turn vial upside down to check for air bubbles. If bubbles are present, use the cap to add more water.
5. Vertically place one barcode to finished sample. The barcode must match the Chain of Custody for each collection point.
6. Repeat steps 2-5 two more times. There will be a total of three vials per collection point.
7. Combine the three vials with provided rubber band and mesh sleeve. Place all bottles in provided cooler and fill completely with ice. Do not store samples in freezer as they may break.
8. Complete the Chain of Custody.
9. If necessary, proceed to the next collection site and repeat steps 1-8 for all sites.
10. See back for Sample Delivery details.

NOTE! If sample begins to foam, discard bottle and contact the lab.
SAMPLE DELIVERY

Mail
Sign and date each Chain of Custody form before mailing. Place all completed forms in a Ziploc® bag or other waterproof container. Place forms in cooler with your THM samples, HAA samples, and ice. Use the provided address labels from Sample Kit. If using a courier, i.e. FedEx, UPS, etc., address your label as the following;

Oklahoma Department of Environmental Quality
707 N. Robinson
Oklahoma City, OK 73102

Personal Delivery
The person delivering samples will sign all Chain of Custody forms at the receiving window of the DEQ Sample Management Unit located through the door on the northeast corner of the DEQ building. Hours of operation at Monday – Friday 8:00 am to 4:30 pm except on state holidays.

For collection assistance, scan the QR code to the right or visit DEQ’s YouTube page, OklahomaDEQ, to view the “THM & HAA tutorial.”

Need Help?
For questions about the analytical prices and fees, scan the QR code to the right, or visit the SEL’s page of the DEQ’s website at www.deq.state.ok.gov

For further assistance or concerns, call 1-866-412-3057 or email us at selsd@deq.ok.gov
