2017 OKR10 General Permit

George Russell IV
Stormwater Program Manager
Environmental Complaints and Local Services
Stormwater Permitting
What do we do?

- Divide tasks between ECLS and WQD
- Paperwork! ~2700 facilities
  - All paperwork goes through our group
  - NOIIs and NOTs
- Invoicing
  - Annual fees and application fees
- Inspections
  - 53 Environmental Specialists throughout the state
  - 21 Field offices
  - Complaints and NOTs
Permitting Process

- Enter NOI into database/Invoice
- Technical Review
- Supervisor Review
- Finalization-Issue Permit/Check for past due fees
- Inspections/Enforcement/Invoicing
- NOT processing
- Inspection
- Termination
Renewal

- Same process
- We mailed packets to all current permit holders
- Submit NOI by January 16, 2018
  - Best way is through email at ecls-stormwaterpermitting@deq.ok.gov
- SWP3 required to be submitted for review for
  - Sites over 40 acres, or
  - Over 5 acres in the Lake Thunderbird watershed, or
  - In a sensitive watershed
- All fees must be paid before a new permit will be issued
Notice of Intent

- Different and longer
- Where can I find it?
- How do I fill it out?
- Make sure it is complete and accurate.
- [http://www.deq.state.ok.us/](http://www.deq.state.ok.us/)
Notice of Termination

- No more Inspection Request forms
- The NOT now acts as a IR form
- Only 1 NOT form per 90 days per site
- 2012 General Permit
  - Permit was terminated at midnight the day it was signed
- 2017 General Permit
  - Your permit is not terminated until we send a termination letter
Notice of Termination

- When we get the NOT
  - Assign an inspection to the local ES
  - 15 days to complete the inspection
  - Send pass/fail letter
- 2 reasons to terminate
  - Site is stabilized
  - You are no longer the owner/operator
Notice of Termination

• Stabilization
  • Uniform perennial vegetative cover (70%)
  • No large bare areas (10 square feet)
  • Pavement, gravel, rip-rap Coverage
Notice of Termination

- No longer in charge of the site
  - Send in NOT along with NOI of new operator
  - If you are in a subdivision
    - For each lot you sell fill out an NCO
    - Keep with your SWP3 until you are ready to terminate
    - The new operator must obtain permit coverage
## Current Status

- **1600 Industrial Permits** (Renewals due October 3rd)
  - 400 No Exposure
- **2700 Construction Permits** (Renewals due January 16th)
- Priority to new permits
- Please be patient

Personal Musings

- Stormwater is important
- A Permit is only a piece of paper, you are responsible for what leaves your site
- Education is the best BMP
