**DESCRIPTION:**

The gist of this rule and the underlying reason for the rulemaking is due to the Legislature passing and the Governor signing Senate Bill No. 1325 and House Bill No. 3824 which transfers authority for administering Oklahoma Water Quality Standards (OWQS) from the Oklahoma Water Resources Board (OWRB) to the Department and specifically allows for DEQ to issue a Water Quality Standard Variance. Changes include updating references to OAC 785:45, OAC 785:46 and OWRB, and replacing these references with OAC 252:730, OAC 252:740, and Department of Environmental Quality (DEQ), respectively, and where applicable. OAC 252:730 and OAC 252:740 are new emergency rules being promulgated due to the legislation referenced above. The Department also proposes to update its rules concerning the date of incorporation by reference for the Code of Federal Regulations from July 19, 2021, to July 1, 2022. The final regulatory change consisted of a technical amendment to modify the submission location for Continuous Release Reports (CCRs) subject to the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA). These reports were submitted to respective EPA regional offices but with the technical amendment, EPA now requires reports be submitted to the appropriate EPA Headquarters office. The amendment also corrected a typographical error, corrected citations within the section, and amended the listed authority.
