TITLE 252. DEPARTMENT OF ENVIRONMENTAL QUALITY CHAPTER 606. OKLAHOMA POLLUTANT DISCHARGE ELIMINATION SYSTEM (OPDES) STANDARDS

RULEMAKING ACTION:

Notice of proposed PERMANENT rulemaking

PROPOSED RULES:

Subchapter 1. Introduction 252:606-1-4 [AMENDED]

SUMMARY:

The gist of this rule and the underlying reason for the rulemaking is to update its rules concerning the date of incorporation by reference for the Code of Federal Regulations from July 12, 2023, to July 8, 2024. The first regulatory change was the Clean Water Act Section 401 Water Quality Certification Improvement Rule that became effective November 27, 2023. The purpose of the final rule was to provide stakeholders with a clear and consistent certification process while ensuring protection of vital state, territory, and Tribal water resources. The second regulatory change, effective on June 17, 2024, consisted of EPA finalizing changes to its test procedures required to be used by industries and municipalities when analyzing the chemical, physical, and biological properties of wastewater and other samples for reporting under the EPA's National Pollutant Discharge Elimination System permit program. This provides timelier access to new measurement techniques and greater flexibility in the selection of analytical methods, thereby reducing monitoring costs while maintaining public health protection. A third regulatory change was the Steam Electric Power Generating Effluent Guidelines final rule which became effective July 8, 2024. This rule revises the technology-based effluent limitation guidelines and standards for the steam electric power generating point source category applicable to flue gas desulfurization (FGD) wastewater, bottom ash transport water, legacy wastewater at existing sources, and combustion residual leachate at new and existing sources. Lastly, EPA designated two per- and polyfluoroalkyl substances —perfluorooctanoic acid ("PFOA") and perfluorooctanesulfonic acid ("PFOS"), including their salts and structural isomers, as hazardous substances under section 102(a) of the Comprehensive Environmental Response, Compensation, and Liability Act ("CERCLA"). As a result of designation, CERCLA and EPCRA reporting requirements apply to releases of PFOA or PFOS or their salts and structural isomers. This rule became effective July 8, 2024.
