PROPOSED RULES:

Subchapter 1. Introduction
252:606-1-4 [AMENDED]

SUMMARY:

The gist of this proposed rule and the underlying reason for the rulemaking is to ensure the Oklahoma Pollutant Discharge Elimination System (OPDES) is in compliance with the Department's delegation agreement with the Environmental Protection Agency (EPA), and to ensure Oklahoma retains responsibility for administering the National Pollutant Discharge Elimination System (NPDES) Program in Oklahoma. The Department proposes to update its rules concerning the date of the incorporation by reference for the Code of Federal Regulations from July 1, 2018, to July 1, 2020. The federal regulation updates being incorporated are minor and intended to modernize regulations, promote submission of complete permit applications, and clarifies regulatory requirements to allow more timely development of NPDES permits that protect human health and the environment.
