

OKR05 and ECLS

George Russell IV
Stormwater Program Manager
Environmental Complaints and Local Services

Stormwater Permitting

What do we do?

- Divide tasks between ECLS and WQD
- Paperwork! ~2000 facilities
 - NOIs, NECs, NOTs, ACSCERs, DMRs
- Invoicing
 - Annual fees and application fees
- Inspections
 - 53 Environmental Specialists throughout the state
 - 21 Field offices
 - Complaints and NOTs

Notice of Intent

- NOI submitted via email, fax, mail, or in person
- Entered into our database and given a permit number
- Check for any past due fees on other permits
- Assigned to one of our technical reviewers or if SWP₃ is required to be reviewed sent to WQD

Technical Review

- Review the NOI for accuracy
 - Latitude/Longitude
 - Receiving waterbody
 - SIC code
- Create Maps
- Letters
- Permit
- Send for Supervisor Review

Finalization

- Permit is ready to be issued
- Verify fees have been paid
- Mail documentation
- Permit is now in effect

Timelines

- Entered into database within 24 hours
 - Technical Review - 7 days
 - Supervisor Review - 24-48 hours
 - Finalization - 24 hours
-
- Approximately 10 days until permit is issued if NOI is correct and complete
 - SWP₃ review requires additional time

After the NOI

- While the permit is in effect
- Annual invoices
- Track payments
- Work complaints
- DMRs
 - Due Jan 15th - electronically
- ACSCERs
 - Due March 1st
- Enforcement referred to WQD

Termination

- When operations have ceased
- NOT is filed
- Verified with an inspection
- Check for any past due fees

Renewal

- Same process
- Submit NOI
 - Best way is through email at ecls-stormwaterpermitting@deq.ok.gov
- Sector J and L or in an ARC will go to WQD for SWP₃ review
- Timelines could be longer based on high volume
- All fees must be paid before a new permit will be issued
